广东演艺设备行业商会

广东作为最早发展舞台灯光音响行业的地区，涵盖了产业链上中下游各个环节，占据了全国80%以上的市场份额。经过30多年的发展，广东企业自主研发生产的专业灯光音响、麦克风、会议系统、激光特效、舞台机械等已成为“中国制造”的代表，广泛应用于国内外重要的文体盛事、专业场馆和演出活动等。

广东演艺设备行业商会成立于2008年3月28日，由多家知名企业自发组织而成，是经由广东省民政厅正式批准的行业性非营利性社会团体。作为全国“四好”商会、广东省“4A等级商会”，目前拥有核心会员400多家，会员企业遍布全省，以专业灯光、音响、麦克风、功放、会议系统、舞台机械的研发、制造为主，覆盖了业界大部分知名企业，其中包括国家行业标准制定企业、国家文化出口重点企业、国家文化产业示范基地企业等行业翘楚。

聚力和谐，创新共赢！商会不断整合多方资源，致力搭建多样平台，推动行业蓬勃发展——

（一）行业交流平台

商会充分发挥行业互动平台的作用，吸纳产业链相关优秀企业加入商会，积极组织不同类型的交流活动，促进行业企业沟通合作，充分挖掘产业集群的优势，实现全产业链共赢发展。

（二）服务活动平台

商会以会员为依托，坚持以服务行业、服务会员为出发点，通过展贸活动、学术交流、标准制定、联谊互动等方式，为行业搭建平台；同时，建立会员片区，因地制宜开展丰富多彩的活动，提升商会的向心力与凝聚力。

（三）引领发展平台

商会积极加强与政府相关部门的联系，向政府反映行业发展情况，及时传递政策，及时反应诉求，引领非公经济人士听党话跟党走，把握时代发展脉搏，培育发展新动力，促进行业健康高质量发展。

（四）展览展示平台

商会以“自主办展”为宗旨，自2011年以来每年举办“广州（国际）演艺设备、智能声光产品技术展览会”（GETshow），展览面积近10万平方米，集中展示全球演艺装备的新产品、新技术，为推动民族品牌创建和发展，促进国际展贸合作提供宽阔的平台。

Introduction
商会简介

Industry Association of South China Entertainment Equipment (SCEE)

As Guangdong was one of the earliest regions to develop the stage lighting and audio industry, it covers various aspects of the industry chain, occupying over 80% of the market share nationwide. After more than 30 years of development, products such as professional lighting, audio, microphones, conference systems, laser effects, and stage machinery independently developed and produced by Guangdong enterprises have become representatives of "Made in China". They are widely used in important cultural and sports events, professional venues, and performance activities both domestically and internationally.

Industry Association of South China Entertainment Equipment (SCEE) was established on March 28th, 2008. It was formed spontaneously by several well-known enterprises and is a non-profit social organization officially approved by the Guangdong Provincial Department of Civil Affairs. As a national "Four Good" Chamber of Commerce and a Guangdong Province "4A Grade Chamber of Commerce", it currently has more than 400 core members, with member companies distributed throughout the province. These companies mainly focus on the research, development, and manufacturing of professional lighting, audio, microphones, amplifiers, conference systems, and stage machinery. The association covers most of the well-known enterprises in the industry, including those designated as national industry standard-setting enterprises, national cultural export key enterprises, and national cultural industry demonstration base enterprises, among others.

The association aims to gather strength in harmony and achieve innovation for mutual success. It continuously integrates resources from various parties and is committed to building diverse platforms to promote the flourishing development of the industry.

(1) Industry Exchange Platform

The Chamber of Commerce fully utilizes its role as an industry interaction platform, attracting excellent enterprises related to the industry chain to join the chamber. It actively organizes various types of exchange activities to promote communication and cooperation among industry enterprises, fully tap into the advantages of industrial clusters, and achieve win-win development across the entire industry chain.

(2) Service Activity Platform

The Chamber of Commerce, relying on its members, adheres to the starting point of serving the industry and serving its members. It builds platforms for the industry through trade fairs, academic exchanges, standard-setting, and social interactions. Meanwhile, it establishes member zones to carry out diverse activities tailored to local conditions, enhancing the centripetal force and cohesion of the chamber.

(3) Leading Development Platform

The Chamber of Commerce actively strengthens its connection with relevant government departments, reflecting the development of the industry to the government, timely conveying policies, and promptly responding to demands. It leads non-public economy individuals to follow the Party's guidance, grasp the pulse of the times, cultivate new development impetus, and promote the healthy and high-quality development of the industry.

(4) Exhibition and Display Platform

With the aim of "self-organized exhibitions," the Chamber of Commerce has been hosting the "Guangzhou (International) Entertainment Equipment and Intelligent Audio-Lighting Products Technology Exhibition" (GETshow) annually since 2011. The exhibition covers an area of nearly 100,000 square meters, concentrating on displaying new products and technologies of global entertainment equipment. It provides a broad platform for promoting the creation and development of national brands and facilitating international trade and cooperation.

企业简介

公司创办于 1996 年的恩平市三鹰电子有限公司，自成立以来始终深耕电容传声器领域，专注于核心技术研究与新产品创新开发，积累了二十余年深厚的产品研发与制造经验。公司深耕行业本质，对电容传声器的关键技术指标展开系统性钻研，全面覆盖灵敏度、频率响应的平坦度与带宽、不失真最大声压级及信噪比等核心参数，构建了完善的技术指标管控体系。在核心技术打磨上，公司尤为聚焦电容麦克风的拾音指向特征优化，同时持续深耕低阻输出技术，着力提升平衡输出与非平衡输出的适配性与稳定性。经过多年技术沉淀与持续创新迭代，三鹰电容麦克风的电性能指标已稳居行业领先水平。

Founded in 1996, Enping Sanying Electronics Co., Ltd. has been deeply engaged in the field of condenser microphones since its inception, focusing on core technology research and innovative development of new products, accumulating over two decades of profound experience in product research, development, and manufacturing. The company has delved deeply into the essence of the industry, systematically studied the key technical indicators of condenser microphones, comprehensively covering core parameters such as sensitivity, flatness and bandwidth of frequency response, maximum sound pressure level without distortion, and signal-to-noise ratio, and established a comprehensive technical indicator control system. In terms of core technology polishing, the company particularly focuses on optimizing the pickup direction characteristics of condenser microphones, while continuously deepening low-impedance output technology, striving to enhance the adaptability and stability of balanced and unbalanced outputs. After years of technological accumulation and continuous innovation iteration, the electrical performance indicators of Sanying condenser microphones have firmly established themselves as industry leaders.

企业简介

恩平市铂林电子有限公司，专业研发.生产优质的无线麦克风与天线放器系统产品,研发最先进的天线分配放大系统技术，凭借其智能多通道射频分配矩阵技术、强大的兼容性、良好的扩展性以及高信号质量、设备安装简便等核心优势，在复杂应用场景中展现出极高价值。该系统为中大型无线音频系统提供了可靠、高效、便捷的解决方案，满足不同领域对音频传输的多样化需求。UHF天线分配放大系统专为中大型无线音频系统设计，采用智能多通道射频分配矩阵技术，支持多通道信号的低损耗、高保真传输与分布式扩展部署，可有效且显著扩大信号覆盖范围，同时确保信号完整性。系统兼容主流品牌及国产设备的UHF数字/模拟无线音频系统。

Enping Bolin Electronics Co., Ltd., specializing in research and development. Produce high-quality wireless microphone and antenna broadcaster system products, and research and develop the most advanced antenna distribution amplification system technology. With its intelligent multi-channel radio frequency distribution matrix technology, strong compatibility, good scalability, high signal quality, easy equipment installation and other core advantages, it shows extremely high in complex application scenarios. Value. The system provides reliable, efficient and convenient solutions for medium and large wireless audio systems to meet the diversified needs of audio transmission in different fields. The UHF antenna distribution amplification system is specially designed for medium and large wireless audio systems. It adopts intelligent multi-channel radio frequency distribution matrix technology to support low-loss, high-fidelity transmission and distributed expansion deployment of multi-channel signals, which can effectively and significantly expand the signal coverage while ensuring signal integrity. The system is compatible with UHF digital/analog wireless audio system of mainstream brands and domestic equipment.

企业简介

深圳市音频网通科技有限公司是一家主要提供音频网络传输的创新型技术方案公司。自主研发，专业的FPGA工程师、嵌入式软件工程师、硬件工程师，为您提供全方位的技术解答，支持OEM&ODM，只为给您提供更好的服务。
公司将网路技术和音频技术相结合，提供用以太网，交换机，网线等网络技术传送多通道的专业级的高保真的音频数据的解决方案。用网络传输代替传统的模拟线后，可以使得音频传输具有更高的抗干扰性，音频数据路由关系软件可定义，音频设备运行状态可监控，可以方便的与数字技术如DSP电脑软件等交互协同工作，是下一代音频技术的发展方向。
公司产品主要应用于功放，麦克风，调音台，处理器，线阵等。

Shenzhen Audio Netcom Technology Co., Ltd. is an innovative technical solution company mainly providing audio network transmission. Independent research and development, professional FPGA engineers, embedded software engineers, hardware engineers, provide you with a full range of technical solutions, support OEM&ODM, only to provide you with better services.
The company combines network technology and audio technology to provide solutions for transmitting multi-channel professional-level high-fidelity audio data using network technologies such as Ethernet, switches, and network cables. After the traditional analog line is replaced by network transmission, the audio transmission can be more anti-interference, the audio data routing relationship software can be defined, the operation status of the audio equipment can be monitored, and it can easily interact with digital technology such as DSP computer software. Work is the development direction of the next generation of audio technology.
The company's products are mainly used in power amplifiers, microphones, mixers, processors, line arrays, etc.

企业简介

DENLET AUDIO品牌源于对音乐充满激情的热爱，热衷于音乐，渴望将最纯净、最震撼的音质传递给每一个热爱音乐的人。

在品牌创立初期，DENLET团队就深知，优秀的音响不仅需要卓越的技术，更需要对音乐的深刻理解。我们潜心研究音响技术，不断追求创新，努力将每一个细节做到极致。

经过多年的努力，DENLET AUDIO逐渐在音响市场中崭露头角。我们的产品以其出色的音质、精湛的工艺和时尚的设计赢得了众多消费者的青睐。DENLET AUDIO音响不仅能够还原出最真实的音乐细节，还能营造出震撼的音效，让人们仿佛置身于音乐会现场。

为了确保产品的质量，我们严格把控每一个生产环节，从原材料的选择到成品的检

DENLET AUDIO brand stems from the passion for music, passionate about music, and eager to convey the purest and most shocking sound quality to every person who loves music.

In the early days of the brand's establishment, the DENLET team knew that excellent audio not only requires excellent technology, but also a deep understanding of music. We focus on researching audio technology, constantly pursue innovation, and strive to achieve the ultimate in every detail.

After years of efforts, DENLET AUDIO has gradually emerged in the audio market. Our products have won the favor of many consumers with their excellent sound quality, exquisite craftsmanship and fashionable design. DENLET AUDIO audio can not only restore the most authentic music details, but also create a shocking sound effect, making people feel as if they are at a concert.

To ensure the quality of the products, we strictly control every production link, from the selection of raw materials to the testing of finished products, all following extremely high standards. This persistent pursuit of quality makes us a leader in the audio field. At the same time, we also pay great attention to communication and interaction with users. Listen to the needs and feedback of users, and continuously improve the product to meet the increasingly higher sound quality requirements of users. This user-centered concept allows us to establish a deep emotional bond with consumers.

With the development of the brand, DENLET AUDIO begins to get involved in more fields. We cooperate with artists, music producers, etc. to explore the infinite possibilities of music together. DENLET AUDIO is not only the creator of audio products, but also the disseminator of music culture.

In the future development, we will continue to adhere to the conce

Auer Lighting是照明行业的领先合作伙伴，致力于开发和制造精密玻璃光学和镀膜解决方案。我们位于德国总部，成立于1948年，以及遍布各大洲的销售和分销中心，在全球范围内提供卓越的服务水平。
黑色图案片（Gobo）。一种特殊的涂层吸收了VIS光谱，因此玻璃面看起来是黑色的。
正面和背面都是反光的。是高温的解决方案。从长远来看，可达到400°C耐温。
颜色片/CMY
二向色滤光片提供了广泛的高饱和和低饱和颜色，在操作过程中不会发生颜色偏移。
CMY系统：内部激光烧蚀技术可生产和供应色轮、旗帜和云的不同定制设计.
以及雾化片，玻璃导光柱，菲涅尔透镜，玻璃陈列透镜，还提供设计模拟和定制服务。
positions
Dichroic color filters, Auer Lighting offers an extensive range of high and low saturated colors without color shift during operations.
CMY-systems: inhouse laser ablation allows the production and supply of customized designs for color wheels, flags, and clouds
Gobos, white gobos are included to the Auer program for entertainment lighting as well. Very small designs that create breathtaking projections, better heat absorption, no ghost light, better contrast – it looks more dark where it should be. Laser ablation is done inhouse, using Nd:YAG lasers.
Brand-new:
BlackPlus Gobos. A special coating is absorbing the VIS spectrum thus the glass side looks black. The front and rear side are reflective. Your solution for high temperatures. 400°C possible also on a long run.
Diffusion Filters. Precision structured glass surfaces leading to different light distribution.
Strong performance, perfect material.
Individual designed glass optics for stunning light quality:
Fresnel lenses and PAR/diffusion lenses are offered in various focal length and shapes up to a diameter of 625 mm off the shelf. The lenses are suitable for all light sources. Exact light focusing and variable angular beam spreads for spotlight to floodlight are part of the wide program. Customized lenses can be discussed with you.
Glass light guides for perfect color mixing and highest level of efficiency. Off the shelf light guides for the most popular LED-brands are available. To support standing alone products, customized designs can be developed.
LED glass optics rely on the advantages of our optics made from glass.
Temperature and UV resistance with a long life.

Core Performance: High Definition, Low Loss, and Precise Light Control
The new WK series lenses are renowned for their professional imagin quality. Supporting 4K UHD resolution, they precisely capture detailed images, reproducing complex textures and color transitions with exquisite detail, delivering a crisp, clear visual experience. Furthermore, the lenses utilize an advanced optical design for ultra-low light loss, minimizing light loss during transmission. This ensures abundant brightness and rich colors for projected images, maintaining excellent light performance even in large-scale projection environments.
To meet the operational needs of professional users, the WK series lenses feature a manual focus function, allowing users to precisely adjust focus based on actual scene parameters such as projection distance and screen size, providing flexible control of image clarity and meeting the image quality requirements of various installation environments. Furthermore, these lenses offer robust adaptability, supporting projection equipment with brightness levels up to 15K lumens, easily meeting the demands of demanding environments such as large conferences, exhibitions, and high-end cinemas.

企业简介

1983 年创立的 MA 灯光，现已跻身电脑控光控制台、网络组件领域的国际前列。这份成功绝非偶然：我们以持续创新为核心驱动力，紧跟行业动态、满足多元需求，倾力研发面向未来的产品解决方案。
MA 灯光的国际领先地位，依托两大核心支柱构筑 —— 位于瓦尔德布特尔布伦的 MA 灯光技术公司，是我们的生产、研发中心；而帕德博恩的 MA 灯光国际公司，为市场推广、渠道分销与技术支持枢纽。我们恪守品牌箴言：“整体的价值，远大于各部分之和”。旗下产品均经自主化、定制化深度研发，性能强劲且极具市场竞争力；而当所有 MA 组件整合为一套完整的 MA 系统时，所迸发的协同效应，在市场上独一无二者。
Products that set the standard Since its foundation in 1983, MA Lighting has expanded to become an international leader for computer-controlled lighting consoles and networking components. This success is based on solid reasons: With its commitment and power to innovate, MA Lighting meets the growing demands of a constantly changing industry and develops product solutions for tomorrow.
The leading international position of MA Lighting rests on two columns – MA Lighting Technology in Waldbuettelbrunn, the centre for production, research and development and MA Lighting International in Paderborn – the marketing, distribution and technical support hub. We are faithful to our motto “The whole is much bigger than the sum of its parts”. Our products are fully and individually developed, powerful and extremely competitive, but as a complete MA system, the aggregate MA components built a synergy that is absolutely unequalled on the market.

企业简介

Lunalynx 成立于2015年，愿景：“成为您值得信赖的LED舞台灯光合作伙伴"。从香港小型工作室起步，为客户设计制造原型。2018年迁至深圳更大工厂，专注小批量高质量LED模组、透镜组件及灯具。从无名设计公司成长为美欧品牌可靠伙伴，提供OEM/ODM服务。疫情挑战下，精益灵活制造助我们顺利渡过。为今日成就自豪。
我们的解决方案
提供前沿LED舞台照明解决方案，把握行业趋势、技术与法规。专注剧院照明（如聚光灯）OEM/ODM，定制匹配客户需求。
我们的工厂位于粤港澳大湾区深圳坪山，数小时内的供应链，配套完善，交付准时。
Lunalynx began in 2015 with a simple, yet powerful vision: "To be your trusted LED lighting partner for success". From humble beginnings in a small Hong Kong workshop, we poured our energy into designing and crafting prototypes for our early customers. As our reputation grew, we expanded, establishing a larger workshop in Shenzhen, China, in 2018. This pivotal move allowed us to focus on designing and manufacturing small volumes of high-quality products, including LED modules, lens assemblies, and complete fixtures. We transformed from a virtually unknown design house into a recognized partner for key brands in the USA and Europe. For years, we worked diligently behind the scenes, providing OEM and ODM solutions. The challenges posed by the COVID-19 pandemic tested our resilience, but our core values of lean and flexible manufacturing enabled us to navigate these turbulent times. We're immensely proud of the journey that has shaped Lunalynx into the company we are today.
Our Solutions
We empower our clients with cutting-edge LED stage lighting solutions, driven by a proactive approach to industry trends, emerging technologies, and evolving lighting regulations. We specialize in OEM/ODM manufacturing of LED theater lighting such as profile, spotlights, crafting tailor-made solutions that perfectly align with our clients' unique needs and visions

澳盟箱柜制造广州公司是 Armor Cases 悉尼的海外制造基地。Armor Cases 悉尼成立于 2016 年，多年来凭借稳定的品质与专业的服务，赢得了澳大利亚众多知名演出制作公司、设备经销商及制造商的信任。广州公司的成立旨在将我们的产品带向全球市场，在确保品质不妥协的前提下，为国际客户提供更具竞争力的成本优势。
我们的核心优势在于与悉尼总部共享产品研发。悉尼位于全球主要的英语国家之一，聚集着世界级的演出制作公司和大量专业路演箱用户。研发团队能够直接接触终端用户，深入了解实际使用需求，从而确保产品设计更贴近真实应用场景。
Armor Cases Guangzhou is the international manufacturing arm of Armor Cases Sydney, a company founded in 2016 and trusted by leading live event production companies, equipment distributors, and manufacturers across Australia.
Established to bring our products to customers worldwide, Armor Cases Guangzhou delivers the same high standards of durability and precision while optimizing cost for global markets.
Our unique advantage lies in shared product development with our Sydney headquarters. Located in one of the world’ s major English?speaking market, the Sydney team works closely with end users—touring professionals, production companies, and equipment manufacturers—to refine designs based on real?world feedback. This direct connection ensures every Armor Cases product is engineered with a deep understanding of how road cases are used in demanding environments.
All Armor Cases products are designed in SolidWorks and supported by advanced 3D scanning technology to capture exact equipment geometries. Our manufacturing process uses high?precision CNC machinery to maintain consistency, accuracy, and repeatability across every production run.
To achieve long?term durability, we specify WBP?grade laminated birch plywood, reinforced with 2?mm aluminium extrusions and 2?mm steel ball corners. This combination of premium materials and engineering?driven design ensures our cases perform reliably under the toughest touring and transport conditions.
Armor Cases Guangzhou extends the capability of our Australian brand to the global stage—delivering world?class road cases with uncompromising quality, engineered insight, and manufacturing efficiency

你是否曾梦想过一套连接舞台设备的新方式？我们如今配置灯光秀的方式过于复杂。现在是2025年，而我们仍然在显示屏上手动配置DMX设备，花费大量时间设置复杂的参数。我们假想了一套系统，能让技术人员只需连接灯光、分配设备ID，即可开始控制灯光，让故障排查从此成为历史。于是我们在比利时创建了这套系统....
Ever dreamed about a new way of connecting lighting fixtures? Let’ s just be honest about it: the way we configure light shows today is overly complicated. It’ s 2025, and we are still manually configuring DMX devices on the display or spending too much time setting up complex settings. We envisioned a system where technicians just connect their lights, assign fixture ID’ s and can start controlling lights. A system that makes troubleshooting a thing of the past. And we build it...in BELGIUM.
